

# Use Me

## Miguel

Sedate me, so that your salty is sweet  
I'm overwhelmed by tasty thoughts of you  
Daydream, my pride is waving the white flag  
Take me, yeah, ah baby  
Now I know I'm sober  
Just so profound  
And every wall I put up  
Has come crashing down  
Don't the waves pull sand  
Don't the moon pull the tide back  
I love you Use me, I'm gonna give you control  
With the lights on  
If I could just let go  
Forgive me, it's the very first time  
And I'm nervous, can I trust you  
Trust me, while I take this off  
With the lights on, cause it turns me on  
If you're nervous, just let me show you  
How to touch me, I could teach you this Sensation, as I place my tongue on your lips  
You're overwhelmed by everything I do, oh  
Curse me, now it's such a beautiful nightmare  
Don't wake me, now baby  
Now I know i'm sober, it's just so profound  
And every wall I built up  
Has come crashing down  
Don't the waves pull the sand  
Don't the moon pull the tide baby  
I'm yours Use me, I'm gonna give you control  
With the lights on  
If I could just let go  
Forgive me, it's the very first time  
And I'm nervous, can I trust you  
Trust me, while I take this off  
With the lights on, cause it turns me on  
If you're nervous , just let me show you  
How to touch me, I could teach you yeah Full collision as our body's single intertwined  
Biting your lip, baby put me inside  
Crucify thoughts till the moment's on a ricochet  
Purging my mind at all the power I own

Falling to forever just forgive me I was faithless  
Danger in your eyes, baby you can devour me  
Defile me, yeah Use me, I'm gonna give you control  
With the lights on  
And if I could just let go  
Forgive me it's the very first time  
And I'm nervous, can I trust you  
Trust me, while I take this off  
With the lights on, cause it turns me on  
If you're nervous, just let me show you  
How to touch me, I could teach you Use me, I'm gonna give you control  
With the lights on  
And if I could just let go  
Forgive me it's the very first time  
And I'm nervous, can I trust you  
Trust me, while I take this off  
With the lights on, cause it turns me on  
If you're nervous, just let me show you  
How to touch me, I could teach you Use me, I'm gonna give you control  
With the lights on  
And if I could just let go  
Forgive me it's the very first time  
And I'm nervous, can I trust you  
Trust me, while I take this off  
With the lights on, cause it turns me on  
If you're nervous, just let me show you  
How to touch me, I could teach you  
Use me
