Fire From The Flame

[Kieran Goss](#)

You and I were going to save the world
Taking all the fear and pain away
What we didnt know we had to learn
Always be together come what mayBut I see that you have changed
No-one stays the same
Wont you hold me once again
Tell me you remember when
Cant remove the fire from the flameCan I have a moment of your time
Don't know really what I have to say
Though my head is saying I'll be fine
Still my heart is wanting you to stay
