

# Twerk Something Now

## Jarlin Pink

### 1st verse

Hey girl you need someone to hold you at night  
someone that know how to control that backside  
uh give yo body what you need till you satisfied  
baby if you just come with me ima get you right  
i love the way you be working it on the dance floor  
the way you drop and when you stop and bend that back slow  
I'm trying to see how to approach how to attack though  
you got that adrian peterson in your back row  
now baby let me see you heist that  
get in ya ear and say i like that  
you make a nigga wanna bite that  
the way you moving it i might just  
ooh i really want your body  
gotta admit it you the hottest  
gotta get with it get behind it  
what i been looking for you got it , you got it

### chorus

turn around

dribble it let me see you make that bounce  
ooh i like the way you poke that out  
now gone and show me what that ass about  
twerk something now 2xs

### 2nd verse

girl you got me watching you  
jocking you  
wondering how you do what  
your body do  
i can't deny it boo  
niggas be eye'n you

you got that clap and grind  
that rock and wine  
I'm hypnotized  
trying to watch your spine  
if you not too tired

or occupied  
by the end of the night  
i need you by my side  
now baby let me see you heist that  
get in ya ear and say i like that  
you make a nigga wanna bite that  
the way you moving it i might just  
ooh i really want your body  
gotta admit it you the hottest  
gotta get with it get behind it  
what i been looking for you got it , you got it  
you got drinks in your hand  
and the world in your pants
