Passin' Thru

Lumidee

* Can't explain the feelin (feelin, feelin...) *
::1::
Wish I had spoke a lil more to you
but I was just passin' thru (now i regret it daily)
Thinkin back when I was just a girl
The blocks n me was my whole world
And then I slowly see faces change
People they bounce away
Others cannot lose their life
damn it ain't the same
I come back around away
what more can I say
Damn I miss Lil J, Damn I miss Lil J
Chorus
I've been there, you've been there
can't explain the feelin (feelin, feelin)
I've been there, you've been there
can't explain the feelin (feelin, feelin)
::2::
Thinkin back when I was just a girl
My pops n me was my whole world (n how i love him crazy)
Caught up in the era of them days
but still my love would never change
He was just down the street from me
but worlds away
n I never understand the poison in your face
Even though you ain't raise us
your last years they saved us

you will always be my king and it's because you are ?
Chorus
I've been there, you've been there
can't explain the feelin (feelin, feelin)
I've been there, you've been there
can't explain the feelin (feelin, feelin)
::3::
Damn Dee, I swear I wish you was here
tougher than love or, nah you never had no fear
I ain't no how much you meant, until ya was gone

Wish that you could hear my songs n
just sing along hopin you was watchin the kids
n seein they've grown
so many things to say that I with could pick up a phone
ya got caught up with that monster
damn though me too
some times I think what the boys could be
if they had you
but the family's so strong
n we always pull through
we got some angels on our side
and I know that that's the truth
Chorus
I've been there, you've been there
can't explain the feelin (feelin, feelin)
I've been there, you've been there
can't explain the feelin (feelin, feelin)
