## **Automatic Love**

## **Kylie Minogue**

Would you please forgive me I feel a stranger here

It seems that I've lost all my memories

And all of my tears I know why I'm so crazy, I don't care

'Cause it's you that makes me so bewareYou put me on automatic love, there's no return, I'm on

Automatic love, nothing can stop me, I'm on

Automatic love, come on and turn it on

Automatic, automatic, turn it onI didn't feel you enter

In my main menu

But every time I touch the key

The screen is showing youI know why I'm so crazy, I don't care

'Cause it's you that makes me so bewareYou put me on automatic love, there's no return, I'm on

Automatic love, nothing can stop, I'm on

Automatic love, come on and turn it on

Automatic, automatic, turn it onNo man you will control

It's automatic

So beware, oh, yeah, yeah, yeah, yeahYou put me on automatic love, automatic love

Automatic love, nothing can stop me, I'm on

Automatic love, come on and turn it on

Automatic, automatic Automatic love, there's no return, I'm on

Automatic love, nothing can stop me, I'm on

Automatic love, come on and turn it on

Automatic, automatic, turn it on
