# Dead On!

## Accept

Zooming through the universe -
on collision course
A meteor from outta space -
gonna smash the earth
Head down to the trenches -
to watch the bloody war
Nothings gonna stop -
the metal dinosaurs
Runaway train lost control -
a thousand tons of steel
Overheated engines - the screaming
of the wheels
A fighter in a boxing ring -
takes the final blow
Opponents on the canvas -
lost by t.k.o.
Dead on - in a head-on collision
Dead on - like the hammer and the nail
Dead on - in a head-on collision
Dead on - like the hammer and the nail
From Belfast to Jerusalem -
its the living hell
Tuzla to Afghanistan -
fighting tooth and nail
Death is irreversible -
no matter what we try
Life is not recyclable -
we are born to die
Dead on - in a head-on collision
Dead on - like the hammer and the nail
Dead on - in a head-on collision
Dead on - like the hammer and the nail
He was a teen spirit idol -
loaded up his veins
He couldnt stand the pressure -
so he terminates his brains
A renegade Red Indian -
they called Geronimo
Cracked the white mans head -

like the raging buffalo
Dead on - in a head-on collision
Dead on - like the hammer and the nail
Dead on - in a head-on collision
Dead on - like the hammer and the nail
Dead on - in a head-on collision
Dead on - like the hammer and the nail
Dead on - in a head-on collision
Dead on - like the hammer and the nail
Dead on ...
