

So Long I'm Gone

[Chris Isaak](#)

Well I called you for the last time, I won't hang around no more
I don't even remember the number on your door
I don't need you any longer, I don't want your devil's charm
Go and cry your heart out, In your other lover's arm
So long, I'm gone, you won't forget me
I hope you recall all of our fun
So long, be sweet and remember
When you want me back, think of what you've done
You've lost the guy who loved you, don't say I didn't try
This time I'm gone forever, I've said my last goodbye
So long, I'm gone, you won't forget me
I hope you recall all of our fun, so long, be sweet and remember
When you want me back, think of what you've done
You've lost the guy who loved you, don't say I didn't try
This time I'm gone forever, I've said my last goodbye
