

# The Villain

## Poynte

you say I'm not afraid but I linger.  
the pleasures still the same.  
she gets sicker.I'll break your heart, if I can't stay  
it's more than I might be safe to play.It's hidden in the clouds where I can see  
how easily my mind could just break freeArise sweet demon and have your say  
I deserve nothing, but fortunes way  
arise sweet demon and have your say  
I'll break your heart, but I can't stayTenderly my garden grows there.  
Carefully, I'll care and wait there.  
I can't be sure this round will solve it.
