

Cigarettes In The Theatre (4)

Two Door Cinema Club

It starts in the theatre
A night of encounters
If I hadn't been there
If not for a cigarette And you could see it change
Look past the blinding light
Look past the blinding light
Just keep taking now
Tell me your favourite things
Tell me your favourite things Difference in opinion was never an issue
Collect all your questions
Because this time we've all night And you could see it change
Look past the blinding light
Look past the blinding light
Just keep talking now
Tell me your favourite things
Tell me your favourite things
