

# Lost Angel

## Heart

As it was before shall it ever, ever be  
Hear it on the crying wind, hear it weeping on the sea  
Through the winter valley wild and through the darkest night  
Here comes the evil news of the coming fight, yeah  
So love, bring your birds, bring your feathers of peace  
All through the storm let the tides release, yeah yeah yeah  
Love, bring your birds, bring your feathers of peace  
All through the storm let the tides release  
Come on down, Lost Angel, find us now  
From the clouds above right down to the ground  
Lost Angel, come on down  
Stardust, yeah yeah, we are  
And the willow is pushed to bend  
Yeah, too much, too much, too much of man  
And stardust we will be again  
Ho love, bring your birds, bring your feathers of peace  
All through the storm let the tides release, yeah yeah yeah  
Love, bring your birds, bring your feathers of peace  
All through the storm let the tides release  
Well, come on down, Lost Angel, find us now  
From the clouds above right down to the ground  
Come on, come on down, Lost Angel, find us now  
From the clouds above right down to the ground  
Lost Angel  
Now  
Get it now  
Get it now  
Ho, let me know  
Let me know  
Let me know, yeah  
Oh  
Oo angel  
Come on down  
Love, bring your birds, bring your feathers of peace  
All through the storm let the tides release, yeah yeah yeah  
Love, bring your birds, bring your feathers of peace  
All through the storm let the tides release  
Well, come on down, Lost Angel, find us now  
From the clouds above right down to the ground  
Come on, come on down, Lost Angel, find us now  
From the clouds above right down to the ground  
Lost Angel, come on down  
Yeah
