

# Drag Down

## Sebadoh

Its what they call switching lanes  
In the left hand driving in the right hand driving  
And it all seems the same I cant get enough and you cant set it up  
A big omission and a thin disguise, ooh  
And I was hoping for a nice surprise Down on my knees  
I was saying it and you wouldnt listen  
And it all cant go on  
I was getting higher; I was trying hard Oh, drag me down  
I need it  
Oh, drag me down Those suspicions are a waste of time, ooh  
And I was hoping for a nice surprise  
Feed our trouble well  
Learn to feel, I can learn to feel, I can hate it Oh, drag me down Those suspicions are a waste of time, ooh  
And I was hoping for a nice surprise
