Gomez

I've been lost and now found my way
Take me down and save, show me the way
Take me places that I want to stay
Here's to today, here's to todayI've been knocked but now I'm on my feet
Call or light up whenever I get in this deep
Take me places that I know from sleep
Let me sleep, let me sleepHead out and fade out
Keep on the light on, turn it up
Head out and fall down now
Keep the light on and turn it upI don't, cannot live with things you say
Guys don't want you to let it go anyway
Wake me tenderly and leave me to lay
Let me sleep, let me sleepHead out and fade out
Keep the light on, turn it up
Head out and fall down now
Keep the light on and turn it upHere's to today
Here's to today
Here's to today
Here's to today
