

# Take It

## Monster Magnet

Oh little baby you're so fucked up  
Too much of that and there ain't no love  
Stay in the closet and be real still  
Daddy's gonna feed you another pill Tell me what you want and I give it back  
I think you like a little tiny heart attack  
Smokin' cigarettes in the mornin' sun  
Sleepin' then you're ready for another round You gonna take it  
Anyway you can  
You gonna take it  
Anyway you can Honeybee are buzzin' in my head today  
I think it wasn't guilty but it flew away  
Saw you with your lover, you looked so fine  
And now you're on the phone askin' me what time No matter what you say no matter what you do  
I'm never gonna judge you, 'cause I'm worse then you  
Down in the shadows, we make quite a pair  
And life is so much better when you can share You gonna take it  
Anyway you can  
You gonna take it  
Anyway you can  
You gonna take it  
Anyway you can  
You gotta take it  
Anyway you can
