

# California Paradise

## The Runaways

Turn up that radio, hear the rock and roll  
Malibu shines like summer gold  
Wild beaches in the salty wind  
California summers never endCalifornia, you're so nice  
California, you're paradiseThe kids are ripping up the streets in their super cars  
All night parties and loud guitars  
Hot, hot neighborhoods, it's the silver sound  
Wicked Hollywood goes round and roundCalifornia, you're so nice  
California, you're paradise
