California Paradise

The Runaways

Turn up that radio, hear the rock and roll

Malibu shines like summer gold

Wild beaches in the salty wind

California summers never endCalifornia, you're so nice

California, you're paradiseThe kids are ripping up the streets in their super cars

All night parties and loud guitars

Hot, hot neighborhoods, it's the silver sound

Wicked Hollywood goes round and roundCalifornia, you're so nice

California, you're paradise
