Airsick

A Dream Too Late

This road seems longer as it takes me
Takes me further each day
Tryin' to get used to all these towns
But I'm not quite the sameSo show me, show me what I'm missin'
And what I can't see
And lead me, lead me to believe that
There's still a reason here to stayWaking up to another mile
While you're still back at home
Tracin' my dreams keep holdin' on
I'll never feel aloneWanderin' closer I know I'll make it
But how will I make it on my own?
It's comin' in clear now, as I'm gettin' airsick
I'll never make it on my ownI'm sick from breathin' in this new air
Tastes like the time when I lost you
I don't know next time when I see you
Will we always fit the same?I know there's somethin' to be found here
We're countin' days away from you
But I'll take, take all of this in now
I need a chance to see this throughWakin' up to another mile
While you're still back at home
Tracin' my dreams keep holdin' on
I'll never feel aloneWanderin' closer I know I'll make it
But how will I make it on my own?
It's comin' in clear now, as I'm gettin' airsick
I'll never make it on my own, I'll never make it on my ownOne shot is all that I'm seein'
Missin' you is all that I'm breathin'
Give or take, take it or leave it nowOne shot is all that I'm seein'
Missin' you is all that I'm breathin'
Take it or leave it nowWakin' up to another mile
While you're still back at home
Tracin' my dreams keep holdin' on
I'll never feel aloneWanderin' closer I know I'll make it
But how will I make it on my own?
It's comin' in clear now, as I'm gettin' airsick
I'll never make it on my ownIt's comin' in clear now, as I'm gettin' airsick
I'll never make it on my own
I'll never make it on my own
I'll never make it on my ownI'm gettin' airsick
