

Master of the Wind

Die Apokalyptischen Reiter

[bonus track] In the silence of the darkness when all are fast asleep

I live inside a dream calling to your spirit

As a sail calls the wind, hear the angels sing Far beyond the sun across the western sky

Reach into the blackness find a silver line

In a voice I whisper a candle in the night

We'll carry all our dreams on a single beam of light Close your eyes, look into the dream

Winds of change will winds of fortune bring Fly away to a rainbow in the sky gold is at the end for each of us to
find

There the road begins, there another one will end

Here the four winds know who will break and who will bend

All to be the master of the wind Falling stars now light my way

My life was written on the wind

Clouds above, clouds below

High ascend the dreams within When the wind fills the sky the clouds will move aside

And there will be the road to all our dreams

For any day that stings two better days it brings Nothing is as bad as it seems

Close your eyes, look into the dream

Winds of change will winds of fortune bring Fly away to a rainbow in the sky gold is at the end for each of us to
find

There the road begins, there another one will end

Here the four winds know who will break and who will bend

All to be the master of the wind
