

# Tolerance

## Sub Alert

The still and silence is torn with violence  
A loud breaking sound in the night is made  
    Hear it grow, hear it fade  
The sound you're hearing, the sound you're fearing  
    Is the hate that parades up and down our streets  
    Coming within bounds and within reach  
    Now, inside the place we hide away  
    We hear it near and hope it turns away  
        Turn away  
There's something seething in the air we're breathing  
    We learn slash and burn is the method to use  
        Set a flame, burn it new  
        We're overpowered  
    We kneel, we cower, we cover our heads  
    Feel the threat of blows that will come  
    And the damage that will be done in it's wake  
    Now, inside the place we hide away  
    We hear it near although it's miles away  
    We hear it near and hope it turns away  
        Turn away  
    This house divided, we live inside it  
Hate's dwelling place is behind our door in fitful nights  
    Hear it walk the floor and hear it rave  
    As it moans and drags along it's ball and chain  
    As it moves through this house it can't escape  
    Now inside the place we hide away  
    We hear it near and hope it turns away  
        Turn away, turn away, turn away  
        Turn away, turn away
