

Misfit

The Ducky Boys

You never close your eyes
You never sleep at night
You are an emotional nightmare
You are a misfit You like to hurt yourself
And when you don't know why
You're trapped inside your own hell
No one else knows your name See the misfit in the mirror
See the freak that lives inside
See the misfit in the mirror cry See the one nobody wanted
Shattered by a world of lies
See the misfit in the mirror die You always crash your car
You're like a permanent scar
You're just a walking disaster
You are the opposite of moving faster When you've been pushed around
When all your walls fall down
And when they call you misfit
It's so hard to stop the rage See the misfit in the mirror
See the freak that lives inside
See the misfit in the mirror cry See the one nobody wanted
Shattered by a world of lies
See the misfit in the mirror die I see you and I see
Everything that I hate
Darkness all around me
Makes me suffocate See the misfit in the mirror
See the freak that lives inside
See the misfit in the mirror cry See the one nobody wanted
Shattered by a world of lies
See the misfit in the mirror die
