De-Stress (Marshall "Ras Mg" Goodman Remix)

Rebelution

Express to de-stress
I'm innocent
And I feel blessed
Now in effect
To unify, connect
Love the innovation
That I accept
And we let it runYeah, that's how we bring it
Now in effect through the chest when I sing it
I'm innocent but guilty when i kill it
Feel free to flee real fast when I feel itChorus: And I might stress
[Yes I might stress,
too blessed to be stressed] x 3When I say yeah all stay put
Put them back in their place now look
I got 'em locked with the sound just dropped
and I'm bringing it sick with a rhyme top notchAw yeah, that's how we're living
Express to de-stress when I'm in itI'm mic blessed, never cursed trying to get it so
Express to de-stress when I feel itAw yeah, that's how we're living
Express to de-stress when I'm in itI'm mic blessed, never cursed trying to get it so
I'm ready for the action
bring on the tractionAw yeah, tell me how you're livin
De-stress
Come on let me get a sit inWhen I'm low I put a spice in the rhythm
and I put a little sugar on the life that I'm livinThat's right I let my eyes shut light
Start bright to suddenly turn night
Good thing I got my voice on mics
In the zone trying to reach higher heightsChorusWhen I say yeah all stay put
Put them back in their place now look
I got 'em locked with the sound just dropped
and I'm bringing it sick with a rhyme top notchAw yeah, that's how we're living
Express to de-stress when I'm in itI'm mic blessed, never cursed trying to get it so
Express to de-stress when I feel itAw yeah, that's how we're living
Express to de-stress when I'm in itI'm mic blessed, never cursed trying to get it so
I'm ready for the action
bring on the traction
