Explode

Tgt

Girl, don't quit
We ain't in a hurry
Hold as if don't care if you hurting
Set bombs, so now
Lonely I'm, lonely I'm like the sky
I believe that you can doThis can be a fallout
Making me detonate
Resonate to the floor
Just let it all out
Definitely I'm gonna feel it when you finally doWhen you explode
I'm tryina be at ground zero
When you explode
I'm high up, be your heroDon't stop, get it, get it
Bust it up with it, with it
Bust it up with it, with it
Bust it up with it, with it
Don't stop, get it, get it
Bust it up with it, with it
Bust it up with it, with it
Bust it up with it, with itThe fuse is lit
And the ' is on this here
Some fall, some die
Call me up
I'm the sky
Work that only you can doThis can be a fallout
Making me detonate
Resonate to the floor
Just let it all out
Definitely I'm gonna feel it when you finally doWhen you explode
I'm tryina be at ground zero
When you explode
I'm high up, be your heroDon't stop, get it, get it
Bust it up with it, with it
Bust it up with it, with it
Bust it up with it, with it
Don't stop, get it, get it
Bust it up with it, with it
Bust it up with it, with it
Bust it up with it, with itSafe away, ain't got nothing on

What you about to get
Girl, come put that fire on me
Shine on my stick
Look at you, lightning the fuse
I refuse to let you get away
Look at us, about to kaboom
In this room like it's Independence DayJust let it all out
Let it all outWhen you explode
I'm tryina be at ground zero
When you explode
I'm high up, be your heroDon't stop, get it, get it
Bust it up with it, with it
Bust it up with it, with it
Bust it up with it, with it
Don't stop, get it, get it
Bust it up with it, with it
Bust it up with it, with it
Bust it up with it, with itExplode
