

You Waited

Travis Greene

You called out my name
Knew my past, covered my shame
This amazing grace
You've shown
So patiently
You've shown
So patiently And You
You waited
For me
Just for me
Oh... You
You waited
For me
Just for me
Where would I be
If you let me down
Where would I be
If you let me down
Where would I be
If you let me down
Where would I be
If you let me down
Where would I be
If you let me down
But you waited, waited
You waited, waited
You waited, waited
You waited, waited
Where would I be
If you let me down
Where would I be
If you let me down
Where would I be
If you let me down
Where would I be
If you let me down
Where would I be
If you let me down
You waited, waited
You waited, waited
You waited, waited
You waited, waited
You waited, waited

You waited, waited
Where would I be
If you let me down
Where would I be
If you let me down
Where would I be
If you let me down
Where would I be
If you let me down
What amazing grace
You've shown
So patiently
You've shown
So patiently
And you, you waited
For me (Just for me)
You, you waited
For me (Just for me)
