

# World On Fire

## AD/DA

Hearts are worn in these dark ages  
You're not alone in these stories pages  
The light has fallen amongst the living and the dying  
And I'll try to hold it in, yeah, I'll try to hold it in  
    The world is on fire  
    It's more than I can handle  
    I'll tap into the water  
    Try and bring my share  
    Try to bring more  
    More than I can handle  
    Bring it to the table  
    Bring what I am able  
I watch the Heavens but I find no calling  
Something I can do to change what's coming  
    Stay close to me while the sky is falling  
I don't wanna be left alone, don't want to be alone  
    The world is on fire  
    It's more than I can handle  
    I'll tap into the water  
    Try and bring my share  
    Try to bring more  
    More than I can handle  
    Bring it to the table  
    Bring what I am able

Hearts break, hearts mend, love still hurts  
    Visions clash, planes crash  
    Still there's talk of saving souls  
    Still the cold is closing in on us  
    We part the veil on our killer sun  
    Stray from the straight line on this short run  
    The more we take the less we become  
The fortune of one man means less for some  
    The world is on fire  
    It's more than I can handle  
    I'll tap into the water  
    Try and bring my share  
    Try to bring more  
    More than I can handle

Bring it to the table  
Bring what I am able  
The world is on fire  
It's more than I can handle  
I'll tap into the water  
Try and bring my share  
Try to bring more  
More than I can handle  
Bring it to the table  
Bring what I am able
