Souled

Strawman

But hear my story, said its standin true
But nobody callin til I call you
Missionaries go and fight the war
But dont you hear me, I say Babylon fallYou know a Babylon fall
You know a Babylon fall
You know a Babylon fallBut erie nations led us to a fight for survival
That you've got to pull through
Brothers and sisters say youve got to stand tall
But lets unite us cause we've got to evolveYou know we've got to evolve
You know we've got to evolve, no, noBut all I needed was a place to stay
Well, I know my Jah Jah, he the only way
But thick and thin or down that winding road
Fuck all that ganja buzz, its got to get soldYou know its got to get sold
You know its got to get sold
You know its got to get sold, oh no, noYou know its got to get sold, oh, no, no
You know its got to get sold
You know its got to get sold
