

I Got Something

KYTES

Now we got to roll on, gathered on the state side. Come a little closer, you're my four leaf clover. 'Cause I've got a rhythm, I found a beat, millions of bucks won't set us free, we know it's a trap and we will fall. 'Cause I got something you should try, you got something I desire. 'Cause I got something you should try, hold it down like a memory, you got something I desire, don't turn around. Oh- Waoaho-. Om my way to heaven, she's my lucky seven. Well I don't need another, I recognize my lover. 'Cause I've got a rhythm, I found a beat, millions of bucks won't set us free, we know it's a trap and we will fall. 'Cause I got something you should try, you got something I desire. 'Cause I got something you should try, hold it down like a memory. You got something I desire, don't turn around. Oh- Waoaho-. Got to believe there's an open door, hold it up, hold it up for more. Whoah-. Well I must finish what I'm living for. Oh-Whoah-. 'Cause I got something you should try, you got something I desire. 'Cause I got something you should try, hold it down like a memory. You got something I desire, don't turn around. Oh-Whoah-.
