

# True to You

## Jenny Phillips

Something deep inside you  
Wonders if you'll ever be enough  
You fall, you fail  
As you try to measure up  
It hurts  
More than you show

But you have to know  
Your never alone  
He is there  
Always in your heart  
Even when you wonder  
If he knows who you are  
He believes  
You will make it through  
And he knows all the things your gonna do  
No matter what your going through  
He will remain  
True to you

He knew  
All the things you would face  
And he knew  
What you would need  
So he prayed  
And he cried  
And he fell upon his knees  
It hurt  
More than you know  
He's ready to show  
Your never alone

But you have to know  
Your never alone  
He is there  
Always in your heart  
Even when you wonder  
If he knows who you are  
He believes

You will make it through  
No matter what  
Your going through  
He will remain  
True to you  
He will remain  
True to you
