Mike's Song

Strung Out

oh god i can't your in it again
your a slave to your vice man
when you struggled so hard to be free
and i really thought you could ???
why can't you see you were doing so good
your wasting your life oh god man
well i guess i was wrong yeah wrong all along
i guess you'll never see the way things are
your a loser there is no doubt
i gotta give up now
to me your stuck in your rut???
with the way you will always be
and see you are the enemywhen you take a look to see
and there will come a time when you lose your piece of mind
when you take a look inside yourself
