

Dumb

Alexandra Burke

Baby I'm loving your lips,
Cause you know how to use them
I wanna fall in your eyes but there's nothing behind them
Look too good to eat, I just can't believe we can't talk about nothin'
You so fire hot but that's all you got, you're just all about one thing
So bye bye baby
Could've had it
Should've had it
Would've had it
If you were a little less dumb Could've had it
Should've had it
Would've had it
If you were a little less
Dumb dumb dumb dumb
Bye bye baby
Dumb dumb dumb dumb
Bye bye baby You spend more time on look than the rest of my girl friends
I keep trying to go deep but you don't have a deep end
There's just nothing there you play with your hair,
Stuck in front of that mirror
I need something more, more than a ken doll,
I can't make it more clearer
So bye bye baby Could've had it
Should've had it
Would've had it
If you were a little less dumb Could've had it
Should've had it
Would've had it
If you were a little less
Dumb dumb dumb dumb
Bye bye baby
Dumb dumb dumb dumb
Bye bye baby For such a pretty face, boy your such a waste
Dumb dumb dumb
For such a pretty face, boy your such a waste
Dumb dumb dumb Could've had it
Should've had it
Would've had it
If you were a little less dumb Could've had it

Should've had it
Would've had it
If you were a little less dumb Could've had it
Should've had it
Would've had it
If you were a little less dumb Could've had it
Should've had it
Would've had it
If you were a little less Dumb dumb dumb dumb
Bye bye baby
Dumb dumb dumb dumb
Bye bye baby
