

Supercollider

DAG

Pussycat turned over
Just in time to land
The things that bring us together I'll never understand
Oh lonesome souls sure got some energy
And fate's about to spin us crazy
Smash our worlds together
Supercollider
Crazy compass needles
We are colliding
Got the big picture, what makes the party run
Accelerated everybody bouncin' around
We stand at rest until we star
Waitin' for this hell we call a party to stop
Smash our worlds together
Supercollider
Chaos in motion
Chance of colliding
Fate & faith & where you are
Fate & faith phenomenon
Smash our worlds together
Supercollider
Crazy compass needles
Chance of colliding
Smashing it all together
Chaos in emotion
Supercollider
Chance of phenomenon
