

# Schools of Eyes

## Wye Oak

Do I sleep  
The thought is keeping me awake  
I am free  
And no one keeps me in my place  
An invisible tether  
Is somehow stronger  
Oh, my hand is mine  
Even when you hold it When there is time  
Then I will answer, see we have forgot  
A hundred days  
Then I'll remember, see we have forgot  
You hold a sign that seems forever, see we have forgot  
We are amazed  
And I will answer, see we have forgot So show the spark  
Can we be wise  
Do we have the essence  
I see schools of eyes  
Where there should be faces When there is time  
Then I will answer, see we have forgot  
A hundred days  
Then I'll remember, see we have forgot  
You hold a sign that seems forever, see we have forgot  
We are amazed  
And I remember, see we have forgot When there is time  
Then I will answer, see we have forgot  
A hundred days  
Then I'll remember, see we have forgot  
You hold a sign that seems forever, see we have forgot  
We are amazed  
And I will answer, see we have forgot To mind the time  
Then I will answer, see we have forgot  
To spite the days  
Then I'll remember, see we have forgot  
To hold the signs  
That seem forever, see we have forgot  
To be amazed,  
And I'll remember, see we have forgot
