

# To Feel Again

Michael Bolton

I know I owe it to a moment of weakness  
Finally realized I'm not so strong  
Told my heart I had enough so I closed the door on us  
But baby you proved me wrong Now I remember what it's like to hurt so deep inside  
But I never wanna know till you brought me back to life  
Been forever since I've loved somebody, till I cried  
Because of you, because of you  
I can feel again, I can feel again My heart was going through the motions of eden  
While I was faking every breath I take  
You taught me with a single kiss, the simple truth I almost missed  
What good's a heart that can't break Now I remember what it's like to hurt so deep inside  
But I never wanna know till you brought me back to life  
Been forever since I've loved somebody, till I cried  
Because of you, because of you  
I can feel again, feel my life begin Put an end to all this emptiness and let you in  
Took me long enough but now that I know  
Never gonna let this feeling go, oh baby Now I remember what it's like to hurt so deep inside  
But I never wanna know till you brought me back to life  
It's been forever since I've loved somebody, till I cried  
Because of you, 'cause of you, baby Baby everywhere you touch me makes my senses speak  
Now I dream in loving color since you woke me from my sleep  
The more you gave the more I wonder where the hell I've been  
Because of you, because of you  
I can feel again, I can feel again  
I can feel
