Beast

Ali

It's the S, the T, the L, the O
And the U, the I, the S, St. LouisRoll to the North side, chill on the Westside
Take the bridge to the East, the Southside
Dodge the beast, we see 'em comin'
Fuck them, we ain't runnin', we all seventyRoll to the North side, chill on the Westside
Take the bridge to the East, the Southside
Dodge the beast, we see 'em comin'
Fuck them, we ain't runnin', we all seventyWhen you least expect it, I watching every move
That you down packed, I'm city slick without the Lou
Hell yeah, I got some shit to prove
First of all I never left St.Louis, I took a piece of it wit' meIn '93, set up camp in ATL, I was 69in'
Before y'all cats started diamond minin'
'Cause the Freak Nick turned me out, I always knew that
Years later peace trees supplied the woo watHere comes another nigga from the MO, think I'm scared of the mic
For this I waited a long time, haters wanna block my shine
'Cause the way of my words are put together plus I'm still in my prime
Ray-mon, raised above the Lou, straight out the WestsideIn the Guinness Book World's endless is where it's classified
Ali made it happen, gave me some shine
Trife dropped a track so I made up a rhymeJump in the lab chemistry a perfect blend
Created this vaccine like the medicine men
I'm 'bout to use you for the guinea pig
Oh in a matter of fact the side effects are real killin' the whackRoll to the North side, chill on the Westside
Take the bridge to the East, the Southside
Dodge the beast, we see 'em comin'
Fuck them, we ain't runnin', we all seventyRoll to the North side, chill on the Westside
Take the bridge to the East, the Southside
Dodge the beast, we see 'em comin'
Fuck them, we ain't runnin', we all seventyOh ain't it bad, I destroy the nerve, battle boy, natural high cap
Fuck, Donna in the CD, half in the tray me and Ray the boy
Triston, listenin' for flaws, analyzing all of y'allBeen in corners in the Grenada, we took it back troops
Suits, hittin' wells to loot, niggas can hoop
Jumpin' like the G Money, gimme my money
Poised off when he went to see, two honeysI like that, change the CD it's hazmat
Signin' autographs, as we got gas
Tim Woodrow wit' dubs, on the low, showing love
Wit' one light, two young niggas in the clubAnimal House natural fitteds, one leg girl, don' did it
Drop run to raw, the second, flo' wit' it
Paid still castle point, high lawn hazel wood

Er'where it's all good, as weRoll to the North side, chill on the Westside
Take the bridge to the East, the Southside
Dodge the beast, we see 'em comin'
Fuck them, we ain't runnin', we all seventyRoll to the North side, chill on the Westside
Take the bridge to the East, the Southside
Dodge the beast, we see 'em comin'
Fuck them, we ain't runnin', we all seventyRoll to the North side, chill on the Westside
Take the bridge to the East, the Southside
Dodge the beast, we see 'em comin'
Fuck them, we ain't runnin', we all seventyRoll to the North side, chill on the Westside
Take the bridge to the East, the Southside
Dodge the beast, we see 'em comin'
Fuck them, we ain't runnin', we all seventyIt's the S, the T, the L, the O
And the U, the I, the S, St.Louis
