

Satellite

Borgeous, 7 Skies & Sissa

[Verse 1]

Another day passing by
No one will get back to my life
Every time you love, things always change
So I don't want to blame it on you

[Hook]

'Cause every time you look at things above her
And every time you lose that trust in others
Every time you know where your thoughts go higher, hiiiiigh
Just to break and
Put a little love tonight
I will fly higher than a satellite
'Cause every time you look at things above her
And every time you lose that trust in others

Every time you..

[Drop]

[Verse 2]

Another day passing by
No one will get back to my life
Every time you love, things always change
So I don't want to blame it on you

[Hook]

'Cause every time you look at things above her
And every time you lose that trust in others
Every time you know where your thoughts go higher, hiiiiigh
Just to break, break, break, break, break, break, break, break

[Drop]

Put a little love tonight

I will fly higher than a satellite

'Cause every time you look at things above her
And every time you lose that trust in others
Every time you..
