Let Me See

Clannad

Let me see generation times
Will we hear children singing rhymes
Sweet memories gone by, they're gone byLet me be wiser with my eyes
Let me see my love by my side
Let me see heavenLonely tears of searching the wilderness
How this world can lead us all astray
Don't let me cry over colorless picturesNo more bitter winds, no more troubled seas
Just forgive me and let me seeLet me see my love
Let me see
Let me see my love
Let me seeLet me see generation times
Will we hear children singing rhymes
Sweet memories gone by, they're gone byLet me be wiser with my eyes
Let me see my love by my side
Let me see heavenCrossing the room I recognize the child in me
I'll close my eyes to release away all my fears
We silence the rose to see it blossom back againStep by step we walk on, word by word we talk on
Just forgive me and let me seeLet me see generation times
Will we hear children singing rhymes
Sweet memories gone by, they're gone byLet me be wiser with my eyes
Let me see my love by my side
Let me see heaven
