Crystallized

Melody's Echo Chamber

Crawl back to life,
It's been far too long
Crystallized
Round interstellar moons
Seed of light into your atmosphere
What's your world like?
Is the house we've built still here?
Girl you knowWhen the beat of my drum
Meets the beat of your heart
You know I couldn't love any other, any other
This is where I come from
This is where I belong,
With the beat of your drum
Not any otherFall through the sky
Little specks below
Magnify, the further down I go
I feel it in my bones
Can you feel too?
Is this the world I know?
Is the house we've built still here?
Is the human race sincere?When the beat of my drum
Meets the beat of your heart
You know I couldn't love any other, any other
This is where I come from
This is where I belong,
With the beat of your drum
Not any otherFeel the force of time
Weighing down my mind
Tears you cry, screaming at the sky
Come outside,
The rays are shinning brightNot any other
Feels like home
Where I belong
Oh ohWhen the beat of my drum
Meets the beat of your heart
You know I couldn't love any other, any other
This is where I come from
This is where I belong,
With the beat of your drum

Not any other
