We Know What You Mean

Soft Machine

What do you know about nothing people?
You sell yourself so you can buy more
What do you care about bluffing people?
Does it make you want to try more?We know what you mean
We know what you've seen
We understandWhat do you care about bluffing people
Throwing sparrows from the treetops
What do you care about nothing people?
When you're waiting at the bus stopI'm very glad to hear that
We understand the sky will be visible soon
We understand the sky will be visible soonSoon soon soon you will be obliged to try
Soon soon soon to reach your moon and dieWhat do you care about nothing people?
You sell yourself so you can buy more
What do you care about nothing people?
And does it make you want to try more?It's very nice to knowEverybody sing now
An optimistic future
