

# Used to Be

## Hollie Cook

Used to be wonderful, but now its over  
(Its over)  
Comfort finds us in the dark of night  
But then with sunlight  
(Its over)  
Scared to love and so am I  
But the stars are in control  
The moons reflections in your eyes is hypnotising  
Blind  
I followForget what is coming near  
Feel and see whats here  
Dont think I know what to do  
Trust in what to be  
Know that we are drawn into the dark  
The darkSome kind of wonderful is taking over  
(taking over)  
Gravity thats pulling me grabs harder and my heart  
(taking over)  
Scared to even close my eyes but the silence takes its hold  
Warm and welcome in surprise  
Smiling in your shadow  
(your shadow)Forget what is coming near  
Feel and see whats here  
Dont think about what to do  
Trust in what to be  
Know that we are drawn into the dark  
The dark
