Planet Health

Chairlift

When I arrived on planet health
In the state of being well
So I altered my self conscious messes
And body images
I visited the food pyramid
In the desert of vitamins
I found a desired heart rate
And a mouth to resuscitate
I am feeling great tonight
I am feeling great tonight
I am feeling great tonight
I am feeling great tonight
I was trained in diversity
In the garden of puberty
Where they Heimlich maneuvered me
And they showed me how to make a baby
I found my friends in the forest of loves
Where we just said no to drugs
Our intercourse was well protected
We made love with each others' eyes

We're feeling great tonight
We're feeling great tonight
We're feeling great tonight
We're feeling great tonight
Then I found out where you're sent
When you're sick and sad and old
They kick you off of planet health
Into a universe of cold
Stop drop and roll
Just stop drop and roll
Stop drop and roll
Gotta stop and put out the fire
Stop drop and roll
Just stop drop and roll
Stop drop and roll
Gotta stop and put out the fire
Feeling great tonight
I am feeling great tonight

I am feeling great tonight
I am feeling great tonight
