

Teenager

Deftones

I climbed your arms
Then you pulled away
New cavity moved into
My heart today The more she sings
The more it seems
That ooo
Now I'm through
With the new you
Now I'm through
With the new you
New you I drove you home
Then you moved away
New cavity moved into
My heart today The more I scream
The more it seems
That I assume
Now I'm through
With the new you
Now I'm through
With the new you
Now I'm through
With the new you
New you
