Losing Your War

Toxic Lab Rats

We've had our battles and you had yours
A perfect life that's what you're struggling for
Breaking bonds 'cause of your shit
Tried to keep you out but you kept knocking down the door

We've felt the good times, we've felt the bad
We know the all-time low
We'll keep on fighting I'm by your side
I'll never let you go

It seems to me that you are losing your war
A sucker punch, I found you laying on the floor
Don't bring up your old shit
Your point of view didn't do you any good

We've felt the good times, we've felt the bad
We know the all-time low
We'll keep on fighting I'm by your side
I'll never let you go

I got it all my way so hear what I say
Know the good signs, know the bad
Know when to read between the lines
Know when to walk away, know when to cry
Know when to shout hooray!

We've felt the good times, we've felt the bad
We know the all-time low
We'll keep on fighting I'm by your side
I'll never let you go
