

Wait Til You See My Smile

Alicia Keys

When the wind is blowing in your face
sometimes in life you don't see straight

Pray to him

He will show

When your head is in a certain place

Nobody around to make you safe

Stand strong and you will grow

oooooooooooooooo

wait till you see my smile

oooooooooooooooo

wait till they see your smile

don't they love to see you down

kick you while you are on the ground

don't let emotions show

mmmmmm, people always speculate

don't let them get in your way

see they say things they don't know

sing

oooooooooooooooo

wait till you see my smile

oooooooooooooooo

wait till they see your smile

Hey

So your doing better now

Everybody comes around

but you don't really need 'em

'Cause your stronger and your better and you're ready for whatever

Sing

oooooooooooooooo

wait till you see my smile

oooooooooooooooo

wait till they see your smile

oooooooooooooooo

wait till you see my smile

oooooooooooooooo

wait till they see your smile, smile
