Chasing You

Nural

Everlasting yet reaching the end, could you define this?
'Cause I know that I won't be relieved with closure, closure
Closure that never came, never will, I cant deny this
Though denial is all that could bring you closerFarewell to a bitter heart, a bitter soul, the bitter love out of control
But I could never be through
With chasing you, ohYou bring me peace or you piece me apart, I cant decide which
Either way it could only be found if I dig down, dig down
So I dig down and still at it now comin' up empty handed
Only you could fill this crater Ive dug nowSo farewell to a bitter heart, a bitter soul, the bitter love out of control
But I could never be through
With chasing youFarewell to a bitter heart, a bitter soul, the bitter love out of control
But you know I won't be through
With chasing you
With chasing youFarewell to a bitter heart, a bitter soul, the bitter love out of control
But I could never be through
With chasing youFarewell to a bitter heart, a bitter soul, the bitter love
But you know I won't be through
With chasing you, oh
