

# Black Suit

## Grand Duchy

Touch me with your finger and I'll show you how  
I will do our bidding while you sleep  
I will be your brother that you keep  
Hold me brother, hold me closer now You will hear me deep in the night  
I am the light, I am the light Soul slipping down the coal chute into the alien mine  
The boy looks good in a black suit  
We all know that he looks divine  
The boy looks so divine I am but a leech drinking from your veins  
I'm just a monkey on your back  
A chemical reaction in your brain  
Anything that's blue is turning black You will hear me deep in the night  
I am the light, I am the light Soul slipping down the coal chute into the alien mine  
The boy looks good in a black suit  
We all know that he looks divine  
The boy looks so divine Soul slipping down the coal chute into the alien mine  
The boy looks good in a black suit  
We all know that he looks divine  
The boy looks so divine  
The boy looks so divine  
The boy looks so divine
