

# Acceleration

## Urban Verbs

Something is lost and I fear its passion  
Now there's no time for reflecting  
Savage me with bolder passion  
Formalize this weird sensation  
And sink my teeth into acceleration  
Turned my head there was a blur of motion  
Then something struck that responsive chord  
Gear me up cause I m mad for action  
Hungry for some confrontation  
And sink my teeth into acceleration  
Speed rules and days go faster  
Velocity has taken over  
Hang tight its just beginning  
Control collapsed I sent them spinning  
That was the noise of our hideouts crashing  
Those were the voices of all women wailing  
Panic drove mw to the wall  
Abandon the escape routes  
And sink your teeth into acceleration  
We accelerate we all accelerate  
The world accelerate  
We accelerate
