

I'll Make Up for Ev'rything

Frank Sinatra

I'll make up for everything the world has done to you

I'll make every little dream you ever dreamed come true
I will help you to forget you ever shed a tear
Should dark clouds become a threat, then you'll find me near
We'll share all the rainy days that fate may have in
store

Laugh a lot and darling, what is more
We will find the peace of mind that happiness can bring
'Cause I'll make up for everything
