

# Goodbye Monday

Maggie Rose

Woke up late today, I knew  
There's be hell to pay, I  
Threw something on and hit the door  
Looks like all work, no play  
Same thing everyday  
Sometimes I wonder who I'm working for  
And then I think Goodbye Monday  
Weekend's coming fast  
Oh oh  
Glad we made it  
Time to raise your glass So clap your hands with me  
If you got a drink then stomp your feet  
Cause now we're gonna burn this mother down, yeah  
Too many days since I been home  
Had to leave my baby all alone  
Can someone tell me where I am today?  
Bus broke down on a county road  
Am I ever gonna get to the show?  
Sometimes I wonder how much I can take Goodbye Monday  
Weekend's coming fast  
Oh oh  
Glad we made it  
Time to raise your glass So clap your hands with me  
If you got a drink then stomp your feet  
Cause now we're gonna burn this mother down So clap your hands with me  
If you got a drink then stomp your feet  
Cause now we're gonna burn this mother down, yeah yeah  
Gonna burn this down  
Burn it down  
Yeah yeah  
Gonna burn it down  
Burn it down
