I Found God

The Roxx

I want peace in my life
But there's always a sword
The child in me
Has become a man of warIt's not flesh and blood
It's forces unseen
I'm carried to higher places
Than I've ever beenI will not fear
What man can do
Survival is a painful toil
Give me strength to see it throughI found God
I want you to know
I found GodWhere He leads, I will follow
What He pours, I will swallow
When He twists, I will bend
All my trust in HimMy tears have been my meat
Deep calls unto the deep
Fill my wanting mouth
With good things renewedIn the Garden of Indecision
I have no apprehensionI am nothing without You
