

# I Will Protect You

## Korn

Whatcha gonna do? Whatcha gonna feel  
When suddenly I slip away?  
Almost am a ghost of who I used to be  
YesterdayHow you gonna touch and how will you collect  
The beauty when it turns to dust?  
Everything we make, the cells we generate  
Of both of usPlease be aware that I am you  
Nothing could be more certain  
This ain't the time, the place for us  
To understand this lifeHold you in my arms and hold you in my gaze  
Singing with my dying breath  
Underneath this earth a resurrected soul  
And nothing elseSorry for this space, if I could fill a void  
An ocean wouldn't hold my love  
And everything I have and all I ever was  
Is not enoughPlease be aware that I am you  
Nothing could be more certain  
This ain't the time, the place for us  
To understand this lifePlease be aware that I am you  
Nothing could be more certain  
This ain't the time, the place for us  
To understand this lifeThis ain't the time, this ain't the place  
This ain't the time, this ain't the place  
This ain't the time, this ain't the place  
This ain't the time, this ain't the placeThis ain't the time, this ain't the place  
This ain't the time, this ain't the place  
This ain't the time, this ain't the placeI will protect you  
I will protect you  
I will protect you
