SunBurn

Ohgr

in trap dog and cat who do you follow
check out bow and wow two sets of power
each and every little thing begins and ends tomorrow
morning coming early
sun is burning so much hotterthis and that is where it's at
when will there be an end to
ever since before we mince
the patterns fallen into
give into the last review
a bitter pill to swallow
free to choose the better of the two worse paths
to followsun is burning so much hotter ... two sets of power
