Communication

Exit 159

why don't you say it to my face
what's your deal with me anyway
I like it when you say my name
I like it, say it to me say it once again
and I won't go away, yeah
you're too cool to say it
when you say my name
I like it when you're roomates's gone
I like it when you sing your favorite song
I like it when the pain's gone
I like it, say it to me, say it once again
you say it, you say it
so good, good to me
you say it better than
you ever did before
